

# Renfrew Curling Times

May 2024

## Letter from the Editor

It's the end of the season, but that does not mean all things curling comes to an end. The Board and a number of volunteers are already working towards next season. The most current task is to sum up operations from the past year and get input from our members to best move forward in future seasons. The Annual General Meeting is the forum to put ideas forward and assist the Board in a positive fashion. I would encourage every member to attend. If you can't please send your thoughts along with a fellow member.

Additionally, a number of board members are retiring and vacancies need to be filled. All that is required is a positive attitude, willingness to work with others and general knowledge. The Board has sufficient curling expertise to provide new board members with support.

Please support our club...attend the Annual General Meeting on June 11.

## Members Starting a New Journey

As this season ends, we are saying a fond farewell to Cliff and Cathy Valleau. Cliff and Cathy have been great members on and off the curling ice. Cliff has been on our Board of Directors for many years providing a smile and positive feedback in many meetings. Cathy has also been a great supporter of the club volunteering in many ways and always around with a smile and a giggle. We wish you both the best as you move west and onto the next adventure.

## The Ice Shed Gets a Facelift

The Ice Shed was emptied, signs taken down, equipment removed and all walls washed down by a group of very energetic members. Huge thank you to Bernie Leclair, Brian Yolkowskie, Bill Bowles, Matt Wearing, Roy Vasey, Mitch Gaudet, Ken Inglis, George Scott, Keith Moss, Don Rouble, Dave Eady, Ed Hanson. The men worked for about 6 hours and enjoyed a lasagna lunch break. Thank you to Shelley White for the cookies..

## And Now for Something Completely Different

A **BIG** thank you to Sheila Kemp - Aikenheads Drug Store. Sheila has generously donated our new measure stick and lazer!!! Please handle both with care and thank Sheila when you see her!! And thank you to Bob Hay who made and installed the "bird box" to protect the lazer and altered and installed, with Bill Bowles help, the new hangers for the measure sticks.

As we enter the last few weeks of the season, here is a BIG shout out to all who helped with.....
